

# Program 2025

---

Our innovative ICL Course provides an unmatched learning experience designed to revolutionize your daily workflow and elevate patient care.

Throughout the program, participants will engage in a fully simulated environment at every stage, specifically created to help master the essential technologies used in modern refractive practice. You will also learn how to effectively implement and integrate these tools into your clinical routine.

## What You'll Gain

### **Confidence**

*Gain the confidence to perform and indicate EVO ICL procedures with precision and ease.*

### **Efficiency**

*Enhance your practice's workflow by leveraging digital tools that automate key steps and optimize outcomes. Master ICLguru and improve your decision-making process.*

### **Patient Satisfaction**

*Deliver more personalized, predictable, and efficient care, translating into improved visual outcomes and patient satisfaction.*

### **Competitive Edge**

*Stay ahead in a rapidly evolving vision correction landscape, positioning yourself as a leader in tech-integrated ophthalmic practice.*

**Dr. Roger Zaldivar – Director**

**Dr. Roberto Zaldivar – Director**

**Dr. Carlos Gordillo –  
Coordinator**

## SPECIAL INTERNATIONAL PARTICIPATION (ON LINE)

*Dr. Arthur Cummings*

*Brendan Cummings*

*Dr. Arjan Hura*

*Dr. Eva Kim*

*Amanda Carones*

DAY 1 PROGRAM – THURSDAY 6

| Time     | Sessions                                      | Remarks                                                                                                                                                | Location   | Presenter                                                                                     | Time                                                                                      |
